## Convenient features which makes extension must have shop owner

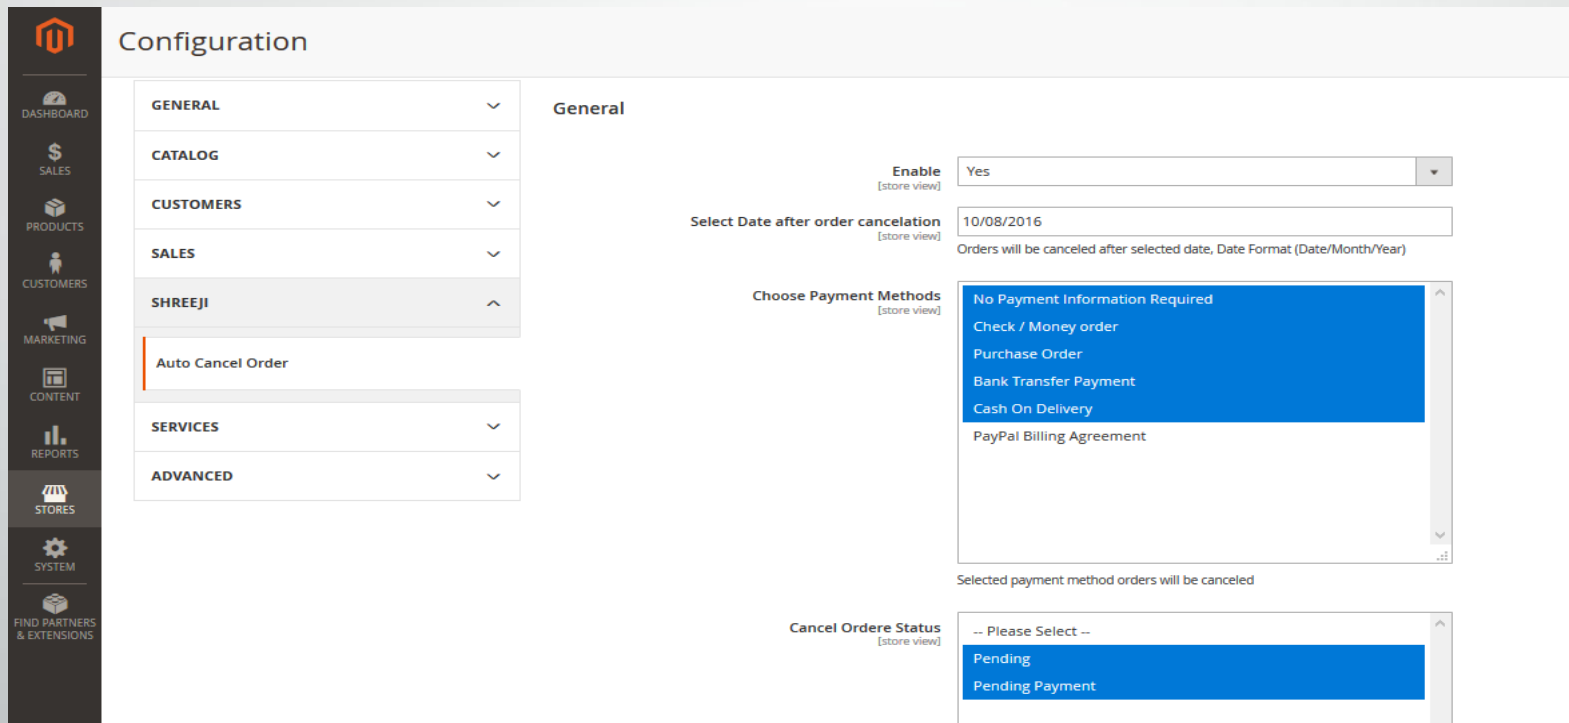

### Description

In eCommerce era, it is normal situations that your store order status always stays in "Pending" status for a large number of days just because the customer did not complete the payment or Sometime It also happens when you are using an offline payment method and store has a large number of fake orders.

To keep in mind the Importance of this feature we at Shreeji Infosys developed this Auto cancel order extension for Magento 2 which allows store owners to set some conditions on the configuration level to automatic cancel orders. From the configuration store owner can filter with certain Payment method(s), order status and date selection to perform automatic cancel order
